Unified Security Gateway

The AnexGATE AWP Plus is a powerful and Robust USG appliance designed for businesses with extensive network demands.

All-in-one Unified Security Gateway

TOTAL CYBER SECURITY

Designed to simplify the security of MSME organizations by replacing traditional, multi-vendor array of expensive network security devices, with a single modern platform with cloud-delivered cybersecurity solution that protects users online and ensures zero-trust private access by providing comprehensive security.

- **Defense in Depth:** Multiple layers of security protection.
- **Compliance Focus:** All major compliance needs – PCI DSS, HIPAA, FISMA, CMMC, etc.
- **Cost Optimization:** Reduce costs by 50% .
- **Advanced Security:** Leverages 5G networking and security open standards.
